'भारतीय पौधा किस्म जर्नल पौधा किस्म और कृषक अधिकार संरक्षण प्राधिकरण (पौ.कि.कृ.अ.सं.प्रा.) का आधिकारिक जर्नल है। पीपीवी और एफआर अधिनियम, 2001 तथा पीपीवी और एफआर नियमावली, 2003 के नियम 2 (जी) के अंतर्गत अध्यक्ष, पीपीवी और एफआरए, एस-2, ए ब्लॉक, एनएएससी कॉम्प्लेक्स, डीपीएस मार्ग, निकट टोडापुर गांव, नई दिल्ली-110012 की ओर से प्राधिकरण के रजिस्ट्रार द्वारा प्रकाशित किया जा रहा है।

Plant Variety Journal of India is the Official Journal of the Protection of Plant Varieties and Farmers' Rights Authority (PPV & FRA) published by the Registrar on behalf of the Chairperson, PPV & FRA, S-2 A Block, NASC Complex, DPS Marg, Opp. Todapur Village, New Delhi-110012 under the PPV & FR Act, 2001 and Rule 2 (g) of the PPV & FR Rules, 2003.

PUBLIC NOTICE

Sub: Notice is given under Rule 29 (8 and 9) of the PPV & FR Rules, 2003.

As a requirement under Rule 29 (8 and 9) of the PPV & FR Rules, 2003, it is hereby informed that the specific DUS test guideline for tea (*Camellia sinensis* (L.) O. Kuntze, *C. assamica* (Masters) Wight, *C. assamica* ssp *lasiocalyx* (Planch ex Watt) Wight is hereby published in 'Plant Variety Journal of India', Vol. 08, No. 01, January 01, 2014. Interested parties may read these guidelines and act accordingly.

Sd/-
MANOJ SRIVASTAVA
REGISTRAR

Tea (*Camellia sinensis*, *C. assamica* & *C. assamica* ssp *lasiocalyx*.)

I Subject

These Test Guidelines shall apply to all varieties of Tea (*Camellia sinensis*, *C. assamica* & *C. assamica* ssp *lasiocalyx*)

II Plant material required

1. The Protection of Plant Varieties & Farmers' Rights Authority (PPV&FRA) shall decide when, where and in what quantity and quality of the plant material are required for testing of the variety denomination applied for registration under the Protection of Plant Varieties and Farmers' Rights (PPV&FR) Act, 2001. Applicants submitting such material from a country other than India shall make sure that all customs and quarantine requirements stipulated under relevant national legislations are complied with the minimum quantity of plant material to be supplied by the applicant shall be 75 plants.
2. The material is to be supplied in the form of nine months to one year old (of 15-18 inches height) young plants having pencil thick stem with their own roots.
3. The plant material supplied shall be healthy, not lacking in vigor or affected by any important pest or disease.
4. The plant material shall not have undergone any chemical or bio-physical treatment, unless the competent authority allows or request for such treatment. If it has been treated, full details of the treatment must be given.

III Conduct of tests

1. The minimum duration of the DUS test shall normally be two years.
2. The test shall normally be conducted at two test locations. If any essential characteristics of the candidate variety are not expressed for visual observation at two locations, the variety shall be considered for further examination at another appropriate test site or under special test protocol on expressed request of the applicant.
3. The field tests shall be carried out under conditions favouring normal growth and expression of all test characteristics. The size of the plots shall be such that plants or parts of plants could be removed for measurement and observation without

prejudicing the other observation on the standing plants until the end of the growing period.

4. In particular, growth regulators should not be used.

5. The test plot design shall be as follows

Planting design	: Single hedge system
Plant spacing	: 75 X 75 cm for south India 110 x 75 cm for plains of north India 90 X 45 cm for the hills of Darjeeling
Plants / replication	: 20
Number of replication	: Two
Total number of plants	: 40

6. Additional test protocols for special purpose shall be established by the PPV & FR Authority

IV. Methods and observations

1. The characteristics described in the Table of characteristics (See Section-VII) shall be used for the testing of varieties for their DUS.
2. For the assessment of Distinctiveness and Stability, observations shall be made on 10 plants or parts of 10 plants, which shall be equally divided among 2 replications.
3. For the assessment of Uniformity of vegetatively propagated varieties, a population standard of 1% and an acceptance of probability of at least 95% shall be applied.
4. All observations on mature leaf characters shall be made on the 5th leaf from the tip.
5. All observations on young leaf characters shall be made on the 2nd leaf of a two leaf and a bud shoot.
6. Observations on pubescence to be taken on the unopened bud and the pigmentation on the first leaf.
7. For the assessment of colour characteristics, the latest Royal Horticultural Society (RHS) colour chart shall be used.

V. Grouping of varieties

1. The candidate varieties for DUS testing should be divided into groups to facilitate the assessment of Distinctiveness. Characteristics which are known from experience not to vary, or to vary only slightly within a variety and which in their various states are fairly distributed evenly across all varieties in the collection, are suitable for grouping purposes.

2. The following characteristics shall be used for grouping of tea varieties
 - a) Leaf shape (Characteristic 5)
 - b) Leaf apex (Characteristic 8)
 - c) Leaf base (Characteristic 9)
 - d) Leaf margin (Characteristics 10)

VI. Characteristics and symbols

1. To assess distinctiveness, uniformity and stability, the characteristics and their states as given in the Table of characteristics (Section VII) shall be used.
2. Notes (1 to 9) shall be used to describe the state of each character for the purpose of digital data processing and these notes shall be given against the states of the different characteristics. .

3. Legend

(*) Characteristics that shall be observed during the active growing season and shall always be included in the description of the variety, except when the state of expression of any of these characters is rendered impossible by a preceding phenological characteristic or by the environmental conditions of the testing regions. Under such situation, adequate explanation shall be provided.

(+) See explanations for the Table of characteristics in section VIII. It is noted that for certain characteristics the plant parts on which observations to be taken are given in the explanation of figure (s) for clarity and not for the colour variation.

4. Type of assessment of characteristics indicated in column 7th of Table of characteristics in section VII is as follows.

Code for growth stage

Code	Growth stage
45	Mature tea (>5 years)
68	Fully developed flower

MG: Measurement by a single observation of a group of plants or parts of plants

MS: Measurement of a number of individual plants or parts of plants

VG: Visual assessment by a single observation of a group of plants or parts of plants.

VII. Table of characteristics

IX. Working group details

The test guideline developed by Tea Research Association, Jorhat, Assam under the Chairmanship of Director, TRA, Jorhat and Director, UPASI, Tea Research Foundation, Tea Research Institute, Valparai-642127, Tamilnadu and Project Director, Darjeeling Tea Research & Development centre, Tea Board of India, Kurseong-734 203, Darjeeling, West Bengal. The suggestions and technical inputs were provided by the following members of task force (2/2012) constituted by the PPV & FR Authority in development & finalization of this DUS test guidelines.

X DUS testing centers

Nodal DUS test center	Other (Co-nodal) DUS Test centers
Tocklai Experimental Station, Tea Research Association, Jorhat-785 008, Assam.	UPASI Tea Research Foundation, Tea Research Institute, Valparai-642127, Tamilnadu. Darjeeling Tea Research & Development Centre, Tea Board of India, Kurseong-734 203, Darjeeling, West Bengal.

PUBLIC NOTICE

Sub: Advertisement is given under sub-section (2) and (3) of Section 21 of the Protection of Plant Varieties and Farmers' Rights Act, 2001 and Rules 30 and 31 of PPV & FR Rules, 2003

It is hereby advertised that the application (s) for registration of varieties listed herein have been accepted subject to the condition of fulfillment of provisions under section 19 of the Act read with Rule 29 of PPV&FR Rules, 2003. The passport data of each variety furnished by the applicant are herewith advertised as specified for calling objections from the interested persons in the matter.

The place or places where the specimen of the variety may be inspected can be obtained in writing from the Registrar of the PPV & FR Authority.

Any person may, within three months from the date of advertisement of the application(s) give notice of opposition in writing to the registration of variety (as per Form PV-3 of the First Schedule of PPV&FR Rules, 2003). Oppositions, if any, to the registration must be submitted, in triplicate, to the Registrar, PPV&FRA, NASC Complex, DPS Marg, New Delhi -110 012 accompanied with the fee of Rs.1,500/- (Rupees One Thousand and Five Hundred Only) by way of Demand Draft drawn in favour of "The Registrar, PPV & FR Authority" payable at New Delhi.

Crop (Taxonomical Lineage) : Pearl Millet [*Pennisetum glaucum* (L.)R. Br.]

Denomination : AKASH (VBBH 350)

Type of Variety : Extant (Variety of Common Knowledge)
Classification of Variety : HYBRID VARIETY
Previously proposed : Not applicable
Denomination
Name of Parental Material : Female - VBBA 310028, Male - VBBR 330612
Name of Reference Varieties : GHB 558

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Plant: Time of spike emergence (50% plants with atleast one spike emerged fully)	Very Late
Spike: Anther colour	Yellow
Spike: Shape	Candle
Seed: Colour	Grey
Seed: Shape	Hexagonal
B. Distinct Characteristics: AKASH (VBBH 350) has distinguishing character as hexagonal seed shape.	
C. Reference varieties: GHB 558 has distinguishing character as elliptical seed shape.	
D. Date of commercialization of the variety	June, 2004

02. Application No.

PUBLIC NOTICE

Details of registration certificate for inviting claims of benefit sharing under sub section 1 of section 26 of PPV&FR Act, 2001 read with rule 40 of PPV&FR Rules, 2003.

The details of registration certificates which have been issued under section 24 (2) of PPV &FR Act, 2001 are published herein for invitation of claims for benefit sharing.

Any person or group of persons, being citizen(s) of India or firm or governmental or non-governmental organization formed or established in India shall submit their claims for benefit sharing (under Section 26 (2) of PPV&FR Act, 2001 read with Rule 41 of PPV&FR Rules, 2003) in Form PV 7 of the First schedule (in triplicate) within a period of six months from the date of publication. Claims for benefit sharing if any shall be submitted to the Registrar, PPV&FR Authority, NASC Complex, DPS Marg, New Delhi-110012 accompanied with the fee of Rs. 5000/- (Rupees Five Thousand Only) by way of Demand Draft drawn in favour of the “Registrar, PPV&FR Authority” payable at New Delhi.

Certificate of Registration No. 157 of 2013

(1) Registration Number and date of grant:- **157 of 2013 & 07/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Sourabh-NP 950**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species: *sp.*

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

LG 72115 x CoJ 82315

(6) Details of the distinguishing features or the characteristics:-

For sparse leaf sheath hairness, lanceolate leaf sheath shape of inner auricle, green leaf sheath colour of dewlap, yellow internode colour (not exposed to sun), thin internode diameter, cylindrical internode shape, medium internode waxiness presence of internode growth crack, medium plant cave height, medium plant number of millable caves per stool.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Sourabh-NP 950 has been commercialized since July 2007.

Certificate of Registration No. 158 of 2013

(1) Registration Number and date of grant:- **158 of 2013 & 07/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Rajbhog (COSE 92423)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species: *sp.*

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

BO 91 x CO 453

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairness, green leaf sheath colour of dewlap, curved tip leaf blade curvature, greyed yellow internode colour (not exposed to sun), cylindrical internode shape, heavy internode waxiness, shallow node bud groove, touching the growth ring node bud tip in relation to growth ring etc.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Rajbhog (COSE 92423) has been commercialized since November 2001.

Certificate of Registration No. 159 of 2013

(1) Registration Number and date of grant:- **159 of 2013 & 07/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Mithas (cos 96268)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species: *l.*

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 1158 x CO 62198

(6) Details of the distinguishing features or the characteristics:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Mithas (cos 96268) has been commercialized since July 2007.

Certificate of Registration No. 160 of 2013

(1) Registration Number and date of grant:- **160 of 2013 & 07/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Haryana-92 (COH 92201)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species: *sp.*

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

Selection from CO 7704 G.C

(6) Details of the distinguishing features or the characteristics:-

For sparse leaf sheath hairness green leaf sheath colour of dewlap, curved tip leaf blade curvature, yellow green internode colour (not exposed to sun), cylindrical internode shape, medium internode waxiness, absence of nod bud groove, below growth ring node bud tip in relation to growth ring, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Haryana-92 (COH 92201) has been commercialized since February 2001.

Certificate of Registration No. 161 of 2013

(1) Registration Number and date of grant:- **161 of 2013 & 07/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **COM 7714 (Krishna)/COM 88121**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 740 x CO 6806

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairness, brown leaf sheath colour of dewlap, erect leaf blade curvature, green yellow internode colour (not exposed to sun), tumescent internode shape, heavy internode waxiness, shallow node bud groove, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

COM 7714 (Krishna)/COM 88121 has been commercialized since September 2000.

Certificate of Registration No. 162 of 2013

(1) Registration Number and date of grant:- **162 of 2013 & 07/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **CO-2001-15**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 85002 x CO 775

(6) Details of the distinguishing features or the characteristics:-

For sparse leaf sheath hairness, greenish yellow leaf sheath colour of dewlap, curved tip leaf blade curvature, yellow green internode colour (not exposed to sun), purple internode colour (exposed to sun), cylindrical internode shape, light internode waxiness, absence of node bud groove, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

CO-2001-15 has been commercialized since February 2009.

Certificate of Registration No. 163 of 2013

(1) Registration Number and date of grant:- **163 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **CO-0232**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CoLK 8102 x CO 87267

(6) Details of the distinguishing features or the characteristics:-

For erect plant growth habit, medium leaf blade width, medium internode diameter, conoidal internode shape, smooth internode rind surface appearance, heavy internode waxiness, small node size of bud.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

CO-0232 has been commercialized since February 2009.

Certificate of Registration No. 164 of 2013

(1) Registration Number and date of grant:- **164 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **KARAN-1 (CO 98014)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 8316 x CO 8213

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, lanceolate leaf sheath shape of inner auricle, medium leaf blade width, green yellow internode colour (not exposed to sun), purple internode colour (exposed to sun), conoidal internode shape, absent internode growth crack, medium node size of bud etc.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

KARAN-1 (CO 98014) has been commercialized since February 2007.

Certificate of Registration No. 165 of 2013

(1) Registration Number and date of grant:- **165 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Sulabh (CO-2001-13)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 7806 PC

(6) Details of the distinguishing features or the characteristics:-

For sparse leaf sheath hairness, crescent leaf sheath shape of ligule, lanceolate leaf sheath shape of inner auricle, green leaf sheath colour of dewlap, medium leaf blade width, curved tip leaf blade curvature, strong plant adherence of leaf sheath, purple internode colour (exposed to sun), thick internode diameter, cylindrical internode shape, present of internode zig-zag alignment etc.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Sulabh (CO-2001-13) has been commercialized since February 2009.

Certificate of Registration No. 166 of 2013

(1) Registration Number and date of grant:- **166 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **COH 119 (Haryana Ganna-119)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 7704 GC

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, yellow leaf sheath colour of lewlap, green internode colour (not exposed to sun), yellow green internode colour (exposed to sun), timscent internode shape, light internode waxiness, absent nod bud groove, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

COH 119 (Haryana Ganna-119) has been commercialized since November 2005.

Certificate of Registration No. 167 of 2013

(1) Registration Number and date of grant:- **167 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Promod (B.O. 128)**

(4) Name of:

Family: Gramineae
Genus: *Saccharum*
Species: *sp.*

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

BO 85 x BO 43

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, purple leaf sheath colour of dewlap, arched leaf blade curvature, green internode colour (not exposed to sun), yellow green internode colour (exposed to sun), cylindrical internode shape, medium internode waxiness, absence of node bud groove, touching the ring nod bud tip in relation to growth ring, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Promod (B.O. 128) has been commercialized since February 2001.

Certificate of Registration No. 168 of 2013

(1) Registration Number and date of grant:- **168 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Rasbhari (COSE-95422)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species: *sp.*

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

BO 91 x CO 453

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, greenish-yellow leaf sheath colour of dewlap, curved tip leaf blade curvature, greyed-yellow internode (not exposed to sun), purple internode colour (exposed to sun), cylindrical internode shape, medium internode waxiness, absence of node bud groove, touching the ring node bud tip in relation to growth ring, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Rasbhari (COSE-95422) has been commercialized since November 2001.

Certificate of Registration No. 169 of 2013

(1) Registration Number and date of grant:- **169 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Co Pant-90223**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

**Open pollinated cross (General cross) on BO 91 in National Hybridization
Garden**

(6) Details of the distinguishing features or the characteristics:-

For sparse leaf sheath hairiness, purple leaf sheath colour of dewlap, curved tip leaf blade curvature, green internode colour(not exposed to sun), yellow-green internode colour(exposed to sun), bobbin shape internode shape, medium internode waxiness, shallow node bud groove, below growth ring node bud tip in relation to growth ring, absence of node bud cushion.

(7) In case of ‘essentially derived variety’, the details of the ‘initial variety’ from which the ‘essentially derived variety’ is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Co Pant-90223 has been commercialized since September 2000.

Certificate of Registration No. 170 of 2013

(1) Registration Number and date of grant:- **170 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Raseeli (COS 91230)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 775 x CO 1148

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, purple leaf sheath colour of dewlap, curved tip leaf blade curvature, green internode colour (not exposed to sun), yellow-green internode node colour (exposed to sun), cylindrical internode shape, medium internode waxiness, absence of node bud groove, below growth ring node bud tip in relation to growth ring, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Raseeli (COS 91230) has been commercialized since September 2000.

Certificate of Registration No. 171 of 2013

(1) Registration Number and date of grant:- **171 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **CO-0218**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CO 8353 x CO 86011

(6) Details of the distinguishing features or the characteristics:-

For dense leaf sheath hairiness, green leaf sheath of colour of dewlap, curved tip leaf blade curvature, yellow-green internode colour (not exposed to sun), yellow internode colour (exposed to sun), cylindrical internode shape, heavy internode waxiness, absence of node bud cushion.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

CO-0218 has been commercialized since August 2010.

Certificate of Registration No. 172 of 2013

(1) Registration Number and date of grant:- **172 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Karan-5 (CO-0124)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

COC 7314 x CO 775

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, purple leaf sheath colour of dewlap, curved tip leaf blade curvature, weak plant adherence of leaf sheath, yellow-green internode colour (exposed to sun), thick internode diameter, medium internode waxiness, absence of node bud cushion etc.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Karan-5 (CO-0124) has been commercialized since August 2010.

Certificate of Registration No. 173 of 2013

(1) Registration Number and date of grant:- **173 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **Sweety (COS 96275)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

CoS 8199 x Co 62198

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, incipient leaf sheath shape of inner auricle, purple leaf sheath colour of dewlap, green internode colour(not exposed to yellow-green, internode colour (exposed to sun), medium internode diameter, cylindrical internode shape, medium internode waxiness, absence of internode growth crack, medium plant cane height, medium plant number of millable canes/stool.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

Sweety (COS 96275) has been commercialized since July 2007.

Certificate of Registration No. 174 of 2013

(1) Registration Number and date of grant:- **174 of 2013 & 08/10/2013**

(2) Name and address of applicant or breeder in whose name the certificate has been issued or registered:-

**Indian Council of Agriculture Research (ICAR),
Krishi Bhawan, New Delhi-110114**

(3) Denomination of the variety:- **cose 96434 (Jalpari)**

(4) Name of:

Family: Gramineae

Genus: *Saccharum*

Species:

Variety and common name: **Extant/typical/sugarcane**

(5) Parentage and geographical location of the variety:-

BO 91 x CO 62198

(6) Details of the distinguishing features or the characteristics:-

For absence of leaf sheath hairiness, crescent leaf sheath shape of ligule, incipient leaf sheath shape of inner auricle, green leaf sheath colour of dewlap, medium leaf blade width, curved tip leaf blade curvature, weak plant adherence of leaf sheath, cylindrical internode shape, light internode waxiness, absence of internode growth crack, oval node shape of bud, high plant number of millable canes per stool.

(7) In case of 'essentially derived variety', the details of the 'initial variety' from which the 'essentially derived variety' is claimed to have been derived:- **NA**

(8) Name and address of the contributor, nature and amount of the contribution or the community knowledge used in the development of the plant variety:- **NA**

(9) Terms and conditions of the agreement, if any, entered into between the breeder and contributor:- **NA**

(10) If the variety is sold or otherwise disposed of, details thereof.

cose 96434 (Jalpari) has been commercialized since May 2004.

PUBLIC NOTICE

Sub: Advertisement is given under sub-section (2) and (3) of Section 21 of the Protection of Plant Varieties and Farmers' Rights Act, 2001 for registration of farmers' variety [Section 2(j)(ii)] read with Rules 30 and 31 of PPV & FR Rules, 2003

It is hereby advertised that the application (s) for registration of farmers' varieties (falling within the definition of extant variety) listed herein have been accepted by the Registrar, Protection of Plant Varieties & Farmers' Rights Authority. The passport data of each variety furnished by the applicant are herewith advertised as specified for calling objections from the interested persons in the matter.

The place or places where the specimen of the variety may be inspected can be obtained in writing from the Registrar of the PPV & FR Authority.

Any person may, within three months from the date of advertisement of the application(s) give notice of opposition in writing to the registration of variety (as per Form PV-3 of the First Schedule of PPV&FR Rules, 2003). Oppositions, if any, to the registration must be submitted, in triplicate, to the Registrar, PPV&FRA, NASC Complex, DPS Marg, New Delhi -110 012 accompanied with the fee of Rs.1,500/- (Rupees One Thousand and Five Hundred Only) by way of Demand Draft drawn in favour of "The Registrar, PPV & FR Authority" payable at New Delhi.

FORM O - 1
(See Rule 30)
Government of India, Plant Varieties Registry
Advertisement of accepted application for registration

01. Application No.

F263	OS279	11	593
-------------	--------------	-----------	------------

 filed on 08.09.2011 by Director Agriculture and food production, Govt of Odisha, Bhubaneswar, 751001 on behalf of **Bhagabana Padiami and others, Jharapalli, Block- Malkangiri, Dist- Malkangiri, State- Odisha a Farmers' variety** of crop **Rice** [*Oryza sativa* L.] having denomination **BUTASORI** the specification includes its drawing and or photograph(s) of which are given below, has been accepted and given registration number -----NA -----on ----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed on -----NA-----, in ---NA-----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety:	BUTASORI				
Applicant	: Bhagabana Padiami and others,				
Address of the Applicant	Jharapalli, Block- Malkangiri, Dist- Malkangiri State- Odisha				
Nationality of Applicant	: Indian				
Application details					
a. Number	: <table border="1" style="display: inline-table; vertical-align: middle;"><tr><td style="padding: 2px 10px;">F263</td><td style="padding: 2px 10px;">OS279</td><td style="padding: 2px 10px;">11</td><td style="padding: 2px 10px;">593</td></tr></table>	F263	OS279	11	593

b. Date of receipt	: 08.09.2011				
C. Date of acceptance	: 29.11.2011				
Crop (Taxonomical Lineage)	: Rice [<i>Oryza sativa</i> L.]				
Denomination	: BUTASORI				
Type of Variety	: Farmers' variety				
Classification of Variety	: Typical				
Previously proposed	: Not applicable				

Denomination

Name of Parental Material : NA

Name of Reference Varieties : Ajaya

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green
Time of heading (50% of plants with panicles)	Medium
Stem: Length (excluding panicles; excluding floating rice)	Short
Decorticated grain: Length	Long
Decorticated grain: Shape (in lateral view)	Medium slender
Decorticated grain: Colour	Red
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: BUTASORI has distinguishing characters like truncate shape of leaf ligule.	
C. Reference varieties: Ajaya has distinguishing characters like splited leaf ligule.	
D. Date of commercialization of the variety	---

02. Application No.

F10	OS83	09	550
-----	------	----	-----

 filed on 30.11.2009 by Prof. Dilip Kumar De, Head, Dept. of Plant Breeding, Bidhan Chandra Krishi Viswavidyalaya, Mohanpur, Nadia, West Bengal, 741252 on behalf of **Shyamsundar Sister Nivedita Sangh (Regn.No.-S/1L/5721), 2001, Vill.+P.O. Shyamsundar, District- Burdwan, P.S.- Raina. PIN-713424, West Bengal,** a Farmers' variety of crop Rice [*Oryza sativa* L.] having denomination **GOBINDA BHOG** the specification includes its drawing and or photograph(s) of which are

given below, has been accepted and given registration number -----NA -----on -----
----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed
on -----NA-----, in ---NA-----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of
Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority,
New Delhi – 110 012.

Passport data of the variety: **GOBINDA BHOG**

Applicant : Shyamsundar Sister Nivedita Sangh,

Address of the Applicant Vill.+P.O. Shyamsundar, District- Burdwan, P.S.- Raina.
PIN-713424, West Bengal,

Nationality of Applicant : Indian

Application details

a. Number :

F10	OS83	09	550
------------	-------------	-----------	-----

b. Date of receipt : 30.11.2009

C. Date of acceptance : 25.02.2010

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **GOBINDA BHOG**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination

Name of Parental Material : NA

Name of Reference Varieties : **Rasi**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green
Time of heading (50% of plants with panicles)	Early to late
Stem: Length (excluding panicles; excluding floating	Short to very short

rice)	
Decorticated grain: Length	Short
Decorticated grain: Shape (in lateral view)	Short bold
Decorticated grain: Colour	Variegated brown
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Present
B. Distinct Characteristics: GOBINDA BHOG has distinguishing characters like straw colour of sterile lemma. The variety is also distinct (other than claimed distinct character) Anthocyanin colour in lemma apex is absent, white colour of stigma, and aromatic decorticated grains.	
C. Reference varieties: Rasi has distinguishing characters like gold colour of sterile lemma. Strong anthocyanin colour in lemma apex, purple colour of stigma, and non- aromatic decorticated grains.	
D. Date of commercialization of the variety	---

03. Application No.

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **MALPATRI**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed Denomination : Not applicable

Name of Parental Material : NA

Name of Reference Varieties : **Kandagiri**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green
Time of heading (50% of plants with panicles)	Medium
Stem: Length (excluding panicles; excluding floating rice)	Short to very short
Decorticated grain: Length	Medium to long
Decorticated grain: Shape (in lateral view)	Long bold
Decorticated grain: Colour	Light brown to white
Endosperm: Content of amylose	Medium to high
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: MALPATRI has distinguishing characters like mostly exerted panicle.	

C. Reference varieties:

Kandagiri has distinguishing characters like well exerted panicle.

D. Date of commercialization of the variety

 filed on 12.09.2011 by Director Agriculture and food production, Govt of Odisha, Bhubaneswar, 751001 on behalf of **Ashok Ku. Sahu and others, Bhutibahal, Block- Gaisilat, Dist- Bargarh, State-Odisha a Farmers' variety** of crop Rice [*Oryza sativa* L.] having denomination **KAMALA SANKARI** the specification includes its drawing and or photograph(s) of which are given below, has been accepted and given registration number -----NA -----on ----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed on -----NA-----, in ---NA-----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: **KAMALA SANKARI**

Applicant : Ashok Ku. Sahu and others,

Address of the Applicant Bhutibahal, Block- Gaisilat, Dist- Bargarh, State-Odisha

Nationality of Applicant : Indian

Application details

a. Number

F329	OS346	11	660
-------------	--------------	-----------	------------

b. Date of receipt : 12.09.2011

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **KAMALA SANKARI**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination

Name of Parental Material : NA

Name of Reference Varieties : **Savithri**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green

Time of heading (50% of plants with panicles)	Late
Stem: Length (excluding panicles; excluding floating rice)	Very short to short
Decorticated grain: Length	Medium
Decorticated grain: Shape (in lateral view)	Short bold
Decorticated grain: Colour	Light brown
Endosperm: Content of amylose	High to very high
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: KAMALA SANKARI has distinguishing characters like density of pubescence of lemma is medium in spikelet.	
C. Reference varieties: Savithri has distinguishing characters like density of pubescence of lemma is weak in spikelet.	
D. Date of commercialization of the variety	---

 filed on 11.07.2011 by Director Agriculture and food production, Govt of Odisha, Bhubaneswar, 751001 on behalf of **Anand Hati and others, Ammunda, Block- Padampur, Dist- Bargarh, State-Odisha a Farmers' variety** of crop Rice [*Oryza sativa* L.] having denomination **NRUPATIBHOG** the specification includes its drawing and or photograph(s) of which are given below, has been accepted and given registration number -----NA -----on ----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed on -----NA-----, in ---NA----

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: **NRUPATIBHOG**

Applicant : Anand Hati and others

Address of the Applicant Ammunda, Block- Padampur, Dist- Bargarh, State-Odisha

Nationality of Applicant : Indian

Application details

a. Number

F118	OS125	11	366
-------------	--------------	-----------	-----

b. Date of receipt : 11.07.2011

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **NRUPATIBHOG**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination

Name of Parental Material : NA

Name of Reference Varieties : **Rongilee**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green to purple lines
Time of heading (50% of plants with panicles)	Late to medium
Stem: Length (excluding panicles; excluding floating rice)	Short to Long
Decorticated grain: Length	Medium
Decorticated grain: Shape (in lateral view)	Short bold to medium slender
Decorticated grain: Colour	Light brown
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Present

B. Distinct Characteristics: NRUPATIBHOG has distinguishing characters like Leaf: auroicles colourless, medium amylase content in endosperm, and aromatic decorticated grains.	
C. Reference varieties: Rongilee has distinguishing characters like Leaf: auroicles light purple, very low amylase content in endosperm, and non-aromatic decorticated grains.	
D. Date of commercialization of the variety	---

 filed on 11.07.2011 by Director Agriculture and food production, Govt of Odisha, Bhubaneswar, 751001 on behalf of **Binod Bihari Kata and others, Dhungiamunda, Block- Sinapali, Dist- Nuapada, State-Odisha a Farmers' variety** of crop Rice [*Oryza sativa* L.] having denomination **HIRAN** the specification includes its drawing and or photograph(s) of which are given below, has been accepted and given registration number -----NA -----on ----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed on -----NA-----, in ---NA-----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: **HIRAN**

Applicant : Binod Bihari Kata and others

Address of the Applicant Dhungiamunda, Block- Sinapali, Dist- Nuapada, State-
Odisha

Nationality of Applicant : Indian

Application details

a. Number

F105	OS112	11	353
-------------	--------------	-----------	------------

b. Date of receipt : 11.07.2011

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **HIRAN**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination

Name of Parental Material : NA

Name of Reference Varieties : **Ajaya, Indira**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green

Time of heading (50% of plants with panicles)	Medium
Stem: Length (excluding panicles; excluding floating rice)	Short
Decorticated grain: Length	Long
Decorticated grain: Shape (in lateral view)	Medium slender
Decorticated grain: Colour	White
Endosperm: Content of amylose	Low
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: HIRAN has distinguishing characters like long decorticated grain length.	
C. Reference varieties: Ajaya, Indira has distinguishing characters like medium size of decorticated grain.	
D. Date of commercialization of the variety	---

Name of Reference Varieties : **Jitendra**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green to uniform purple
Time of heading (50% of plants with panicles)	Medium to late
Stem: Length (excluding panicles; excluding floating rice)	Medium
Decorticated grain: Length	Long to extra long
Decorticated grain: Shape (in lateral view)	Long slender to extra long slender
Decorticated grain: Colour	Red
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: DHUBA ASANA has distinguishing characters like: pubescence of leaf blade surface is strong, panicle awns absent, attitude of panicle branches is erect to semi-erect and red decorticated grains.	
C. Reference varieties: Jitendra has distinguishing characters like: pubescence of leaf blade surface is weak, panicle awns present, attitude of panicle branches is spreading and light brown decorticated grains.	
D. Date of commercialization of the variety	---

65. Application No.

a. Number

F197	OS213	11	527
-------------	--------------	-----------	------------

b. Date of receipt : 05.09.2011
C. Date of acceptance : 29.11.2011
Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]
Denomination : **DO-BHAJONA**
Type of Variety : Farmers' variety
Classification of Variety : Typical
Previously proposed : Not applicable
Denomination
Name of Parental Material : NA
Name of Reference Varieties : **Sabita (NC492)**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green to Uniform purple
Time of heading (50% of plants with panicles)	Medium
Stem: Length (excluding panicles; excluding floating rice)	Short to medium
Decorticated grain: Length	Long to extra long
Decorticated grain: Shape (in lateral view)	Long slender to extra long slender
Decorticated grain: Colour	Light red to red
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: DO-BHAJONA has distinguishing characters like: spikelet density of lemma pubescence is medium.	
C. Reference varieties: Sabita (NC492) has distinguishing characters like: spikelet density of lemma pubescence is weak.	
D. Date of commercialization of the variety	---

 filed on 13.09.2011 by Director Agriculture and food production, Govt of Odisha, Bhubaneswar, 751001 on behalf of **Putu Majhi and others, Ranidumer, Block-Th- Rampur, Dist- Kalahandi, State-Odisha a Farmers' variety** of crop **Rice** [*Oryza sativa* L.] having denomination **KARANJI** the specification includes its drawing and or photograph(s) of which are given below, has been accepted and given registration number -----NA -----on ----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed on -----NA-----, in ---NA----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: **KARANJI**

Applicant : Putu Majhi and others

Address of the Applicant Ranidumer, Block-Th- Rampur, Dist- Kalahandi, State- Odisha

Nationality of Applicant : Indian

Application details

a. Number

F373	OS390	11	704
-------------	--------------	-----------	------------

b. Date of receipt : 13.09.2011

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **KARANJI**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination

Name of Parental Material : NA

Name of Reference Varieties : **Narendra 359**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green

Time of heading (50% of plants with panicles)	Medium
Stem: Length (excluding panicles; excluding floating rice)	Short to medium
Decorticated grain: Length	Medium
Decorticated grain: Shape (in lateral view)	Long bold
Decorticated grain: Colour	White
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: KARANJI has distinguishing characters like- Flag leaf: attitude of blade (late observation) is semi-erect and straw colour of sterile lemma.	
C. Reference varieties: Narendra 359 has distinguishing characters like- Flag leaf: attitude of blade (late observation) is deflexed.	
D. Date of commercialization of the variety	---

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: **BHOGI**

Applicant : Shyama Pujhari and others

Address of the Applicant Gunpur, Block—Th- Rampur, Dist- Kalahandi, State-Odisha

Nationality of Applicant : Indian

Application details

a. Number

F411	OS428	11	742
------	-------	----	-----

b. Date of receipt

: 14.09.2011

C. Date of acceptance : 29.11.2011
Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]
Denomination : **BHOGI**
Type of Variety : Farmers' variety
Classification of Variety : Typical
Previously proposed : Not applicable
Denomination
Name of Parental Material : NA
Name of Reference Varieties : **Salivahana**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green
Time of heading (50% of plants with panicles)	Medium to very early
Stem: Length (excluding panicles; excluding floating rice)	Very short
Decorticated grain: Length	Medium
Decorticated grain: Shape (in lateral view)	Short bold
Decorticated grain: Colour	White
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: BHOGI has distinguishing characters like- white colour of lemma tip.	
C. Reference varieties: Salivahana has distinguishing characters like yellowish colour of lemma tip.	
D. Date of commercialization of the variety	---

 filed on 23.09.2011 by Director Agriculture and food production, Govt of Odisha, Bhubaneswar, 751001 on behalf of **Sisir Kumar Bhanja and others, Khatia, Block—Ranapur, Dist- Nayagarh, State-Odisha** a **Farmers' variety** of crop **Rice** [*Oryza sativa* L.] having denomination **KALAMA** the

specification includes its drawing and or photograph(s) of which are given below, has been accepted and given registration number -----NA -----on ----- NA -----.

The convention application no. -----NA-----, in respect of the said variety has been filed on -----NA-----, in ---NA-----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: **KALAMA**

Applicant : Sisir Kumar Bhanja and others

Address of the Applicant Khatia, Block—Ranapur, Dist- Nayagarh, State- Odisha

Nationality of Applicant : Indian

Application details

a. Number

F767	OS787	11	1104
-------------	--------------	-----------	------

b. Date of receipt : 23.09.2011

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **KALAMA**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination

Name of Parental Material : NA

Name of Reference Varieties : **Sabita (NC 492)**

Variety Description:

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green
Time of heading (50% of plants with panicles)	Medium to very late
Stem: Length (excluding panicles; excluding floating rice)	Very short to long
Decorticated grain: Length	Long
Decorticated grain: Shape (in lateral view)	Long slender
Decorticated grain: Colour	Red
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: KALAMA has distinguishing characters like red decorticated grains.	
C. Reference varieties: Sabita (NC 492) has distinguishing characters like light brown decorticated grains.	
D. Date of commercialization of the variety	---

c. Date of acceptance : 29.11.2011

Crop (Taxonomical Lineage) : Rice [*Oryza sativa* L.]

Denomination : **Boudh-RANISIALI**

Type of Variety : Farmers' variety

Classification of Variety : Typical

Previously proposed : Not applicable

Denomination**Name of Parental Material** : NA**Name of Reference Varieties** : **Sabita (NC492)****Variety Description:**

A. Group Characteristics	Remarks measured values, example varieties, etc.
Basal leaf: Sheath colour	Green
Time of heading (50% of plants with panicles)	Medium to late
Stem: Length (excluding panicles; excluding floating rice)	Very short to long
Decorticated grain: Length	Long
Decorticated grain: Shape (in lateral view)	Long slender
Decorticated grain: Colour	Dark brown
Endosperm: Content of amylose	Medium
Decorticated grain: Aroma	Absent
B. Distinct Characteristics: Boudh-RANISIALI has distinguishing characters like density of lemma pubescence is medium and mostly exerted panicle.	
C. Reference varieties: Sabita (NC492) has distinguishing characters like density of lemma pubescence is weak and well exerted panicle.	
D. Date of commercialization of the variety	---

137. Application No.
